Service Purchasing

Added to the core Service Management software in Sage 300 Construction and Real Estate (formerly Sage Timberline Office) Service Purchasing provides tight management control over service related purchases.

Parts purchases required by service technicians are linked by this software to your work orders and purchase orders. You're able to easily track and quickly match vendor invoices to purchase orders and, as needed, automatically update inventory, parts costs, and more.

Purchase order control

* Ensure accuracy by matching vendor invoices to purchase order.

* Automatically update inventory part costs.

* Assign purchase order numbers to the system automatically or manually.

* Attach purchase orders to fixed price jobs in order to track costs.

* Credit purchase orders for core returns and RMAs.

* Automatically attach purchase orders to work orders and invoices.

Service Purchasing is a part of Sage 300, fully integrated software created to streamline work and connect the people you depend on to build your business.

About The Sage Group, plc
We provide small and medium-sized organizations with a range of easy-to-use, secure, and efficient business management software and services-from accounting and payroll to enterprise resource planning, customer relationship management, and payments. Our customers receive continuous advice and support through our global network of local experts to help them solve their business problems, giving them the confidence to achieve their business ambitions. Formed in 1981, Sage was floated on the London Stock Exchange in 1989 and entered the FTSE 100 in 1999. Sage has millions of customers and more than 12,700 employees in 24 countries covering the UK & Ireland, mainland Europe, North America, South Africa, Australia, Asia, and Brazil.

For more information about Sage in North America, please visit the company website at Sage.com. Follow Sage North America on Facebook, Facebook.com/Sage, and Twitter, Twitter.com/SageNAmerica.

Benefits

* **Increase profitability** with more accuracy from parts purchases made in the field.
